2020/03/21

So, my current os is Kali Linux, and I currently have the alpha awus036ach net adapter, dual band and 2 antennas with 5 dbi... Id like to buy an external antenna to be able to upgrade that dbi power. The question is, should i go for a omni directional antenna? Any recommendations? I really don't know, i'm scared of buying a directional antenna and capt 0 access points..
